16 September 2011

Dear Parent/Carer

I would like to confirm the situation with ICT for all Year 8 and 9 students.

Early last year we reviewed our KS3 curriculum and modified our model by changing the curriculum distribution of some lessons.

The Education System is currently under review by the Government and we are eagerly awaiting the arrival of a new National Curriculum. The consultation phase of The Education Review indicates that ICT should not be delivered as a discreet subject, but should indeed be included in all subject areas.

In view of these changes we have modified our provision of ICT at Tring School. All Year 7 students will continue to have two discreet ICT lessons per fortnight in which they will learn the technical aspects and skills required. These will be delivered by a specialist ICT teacher.

In Years 8 and 9, ICT will be delivered at the relevant points in the curriculum across all subjects. This allows the students to practice and apply these skills in context.

All students will be able to extend their learning within ICT at GCSE and Advanced Level if they should choose to do so.

Please do not hesitate to contact me if you have any further questions regarding the curriculum provision at Tring School on sambrose@tring.herts.sch.uk

Yours sincerely

Mrs Sally Ambrose
Assistant Headteacher
